Major source on legal situation: *United States Department of Agriculture, Global Agriculture Information Network, GAIN, provided by US attaches*

- (1) *National regulations require prior approval of imported LMO for food, feed or processing or an import ban on LMOs is in place*
- (2) *Labelling of food (in some cases also feed) products, usually including thresholds*
- (3) *Algeria and Morocco currently ban the import of all LMOs.*
